

The Second Global 5G Event was held in Rome, Italy on November 9<sup>th</sup> and 10<sup>th</sup>. The sponsorship of these Global 5G Events rotates throughout the world's 5G promotion organizations. The Second Event, sponsored by the 5G-IA (Europe), held presentations and panel discussions on the theme of "Enabling the 5G Ecosphere".

## Second Global 5G Event Overview

- **Date:** November 9–10, 2016 (Wednesday, Thursday)
- **Location:** Rome Marriot Park Hotel (Italy)
- **Sponsor:** 5G-IA (Europe)
- **Participants:** 6 presenters from Japan, 340 participants overall  
 Mr. Yuji Nakamura(MIC), Mr. Akira Matsunaga (KDDI), Mr. Takehiro Nakamura (NTT DOCOMO)  
 Mr. Takaharu Nakamura (Fujitsu), Dr. Takashi Shimizu (NTT), Dr. Kohei Satoh (5GMF)
- **Summary:**
  - 340 participants and exhibitors, mainly from Europe, and including 5G promotion organizations and Japanese, American, European, Chinese, and Korean ministries.
  - The welcome address on the subject of "Enabling the 5G Ecosphere" was given by Antonello Giacomelli, Under-secretary of the Minister of Economic Development, with the mandate for Communications, and representing the Italian government. Five sessions and panel discussions were held: 1) the communication policies of various nations; 2) system architecture; 3) International cooperation in 5G spectrum use; 4) Radio Interface Resource Management; and 5) Network management and software networks
  - Six participants from Japan participated in the presentations and panel discussions
  - 24 organizations were represented in the exhibition hall, which focused on 5G-PPP project demonstrations and results. The 5GMF booth distributed pamphlets and set up a large display summarizing the 5GMF, the 5GMF White Paper, and information on the next Global 5G Event to be held in Tokyo.
  - The two-day event came to a close with remarks by 5GMF Secretary General Dr. Kohei Satoh, who announced next the Global 5G Event, which will be held in Tokyo in conjunction with Wireless Technology Park 2017.
