

The main title of the slide is '5G Roadmap for Global platform towards 2020 realization', centered in a large, bold, black font. The background of the slide is a light blue illustration of a cityscape with various buildings, streets, and people. The illustration includes icons for connectivity, such as Wi-Fi symbols and signal waves, and labels for different sectors: 'CONNECTED THINGS' (top left), 'CONNECTED CITY' (top center), 'CONNECTED HEALTH' (top right), 'CONNECTED HOUSE' (middle left), 'CONNECTED PEOPLE' (bottom center), and 'CONNECTED TRANSPORTATION' (bottom right). The overall theme is a smart, connected city.

Colin Willcock

Chairman of The Board, 5G Industry Association

3rd Global 5G Event, Tokyo, 24th & 25th May 2017

Thoughts on 3rd 5G Global Event

- First Global 5G event for me
- Interesting to understand the global status and plans
- The key words that stand out “Vertical Markets” and “Trials”

The true differentiator for 5G is the vertical markets. If we fail with the verticals, we fail with 5G.

Where we are now

5G PPP

The European path towards global next generation communication network
