

# 5G Roadmap for Global platform towards 2020 realization

2017. 5. 25.

Hyun Kyu, CHUNG

Vice Chair, Executive Committee, 5G Forum  
VP, 5G Giga Communication Research Lab.

**ETRI**

## Remarks (1/2)

- Many people believe that the 5G technologies & standards will go ahead as planned in standard bodies.
- The public's attention is shifting from 5G technologies itself to services that can be experienced.
- Unlike past services, that would most likely to be convergence-type services that can directly affect other vertical industries.
- 5G will play a role as the platform technology for the 4th industrial revolution.

## Remarks (2/2)

- **previous Buzzwords on 5G**

- Technologies, Spectrum, Requirements, PoC
- International Cooperation / Global Harmonization
- Common Standards

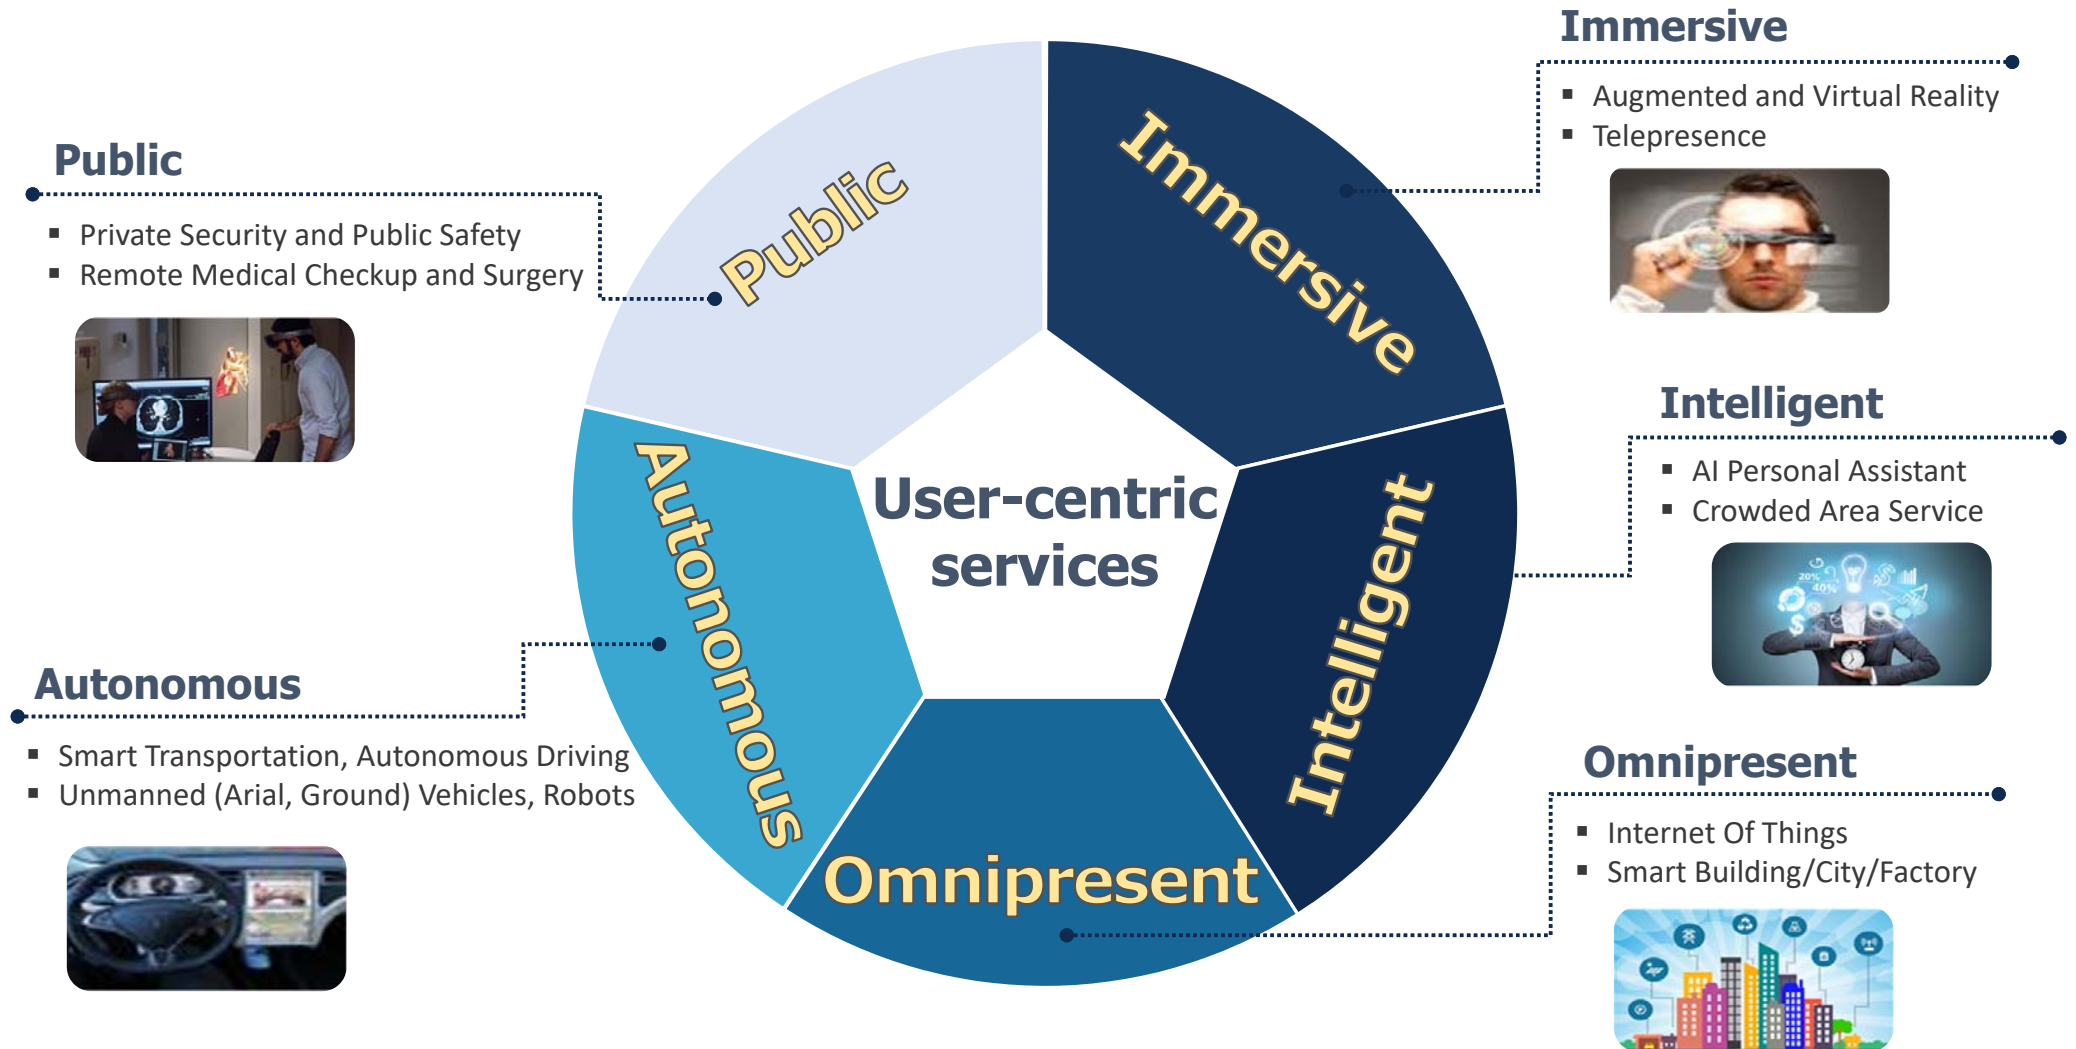

- **coming Buzzwords on 5G**

- **Trial, Deployment Plan**
- **Diversity, Crossover collaboration, Vertical industries**
- **Deployment, Milestone for commercialization**
- **Differentiated 5G services, User Experience ....**
